WHITE SULPHUR SPRINGS. POWELL'S FORT, SHENANDOAH COUNTY, VA.
THE proprietors of these Springt are prepared to recive and accommodate visiters. This delightful Watering place is situated eight miles east of Woodstock, between the Fort and Mansautten Mountains. The new Building (one hundred leet in length,) commenced last season, has been completed, and is ready for the reception of BOARDEKN; and a number of Cottages, or the use of Families, have been erected convenient to the boarding apertment.

These SPRINGS consist of White, Blue and Black Supplier, Unally Brates, Limbstonk and Slate, all having

aperiment.

These SPRINGS consist of White, Blue and Black Selfiuer, Chalveratte, Limestonk and Slate, all having their fountains within a circumference of thirty yards!—the work of Nature's own labratory. They send forth a sufficient quantity of pure water to supply many thousands of persons daily. They are situated in a flat, or rather bain, the ground gradually rising to the south and east until it reaches the western base of the Mansanutten, from which is presented to the eye of the beholder one of the mostenchanting landscape views in the country. To the south, south-east, and east, there are a number of mounds, rising up at distances of from 25 to 100 pards, and from 25 to 100 feet above the level bottom in front and to the north-west of the Spings. Many of these elevations can be approached from the east or rear, by a gentle ascent. The Fort Mountain, with its picturesque scenery, its jutting spurs, its deep ravines, and its lofty peaks, presents a panorama, which, for bold outline and pleasing variety, is is unsurpassed by any mountain scenery in Virginia. Indeed, the scenery presented to view from the summits of the Mansanutten and Fort Mountains, embracing the Page and Warren and Spennadoah Valleys, must be seen to be appreciated.

the Mansamutten and Fort Mountains, embracing the Page and Warren and Sheandoah Valleys, must be seen to be appreciated.

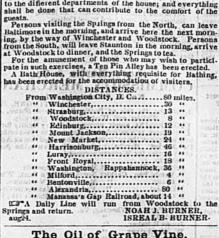

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 160 yards distant; 2. The Cold Spring, a short distance from this; 3. Immediately above is a Unlybeate, sending forth a limpid stream; 4. To the south from the Springs, about three quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring. This preparation has now borne the test of over 14 years experience, since its first introduction to public favor, dur. ng which time numerous imitations have sprung into exist, ence, founding their claims to the confidence of the community on the curative powers contained in Sarsaparilla Root, the great reputation and extended use of which has been the great reputation and extended use of which has been mainly attributable to the many wonderful cures effected by the use of this preparation. While Sarsapariia Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific power, and it is in the pecunal communation and scientific manner of its preparation, that its remarkable success in the cure of disease depends. Other preparations imitate it in the style of putting up, and in bearing the name of one of its ingredients, and here ends their resemblance to it.— Those needing a remedy and purifier like this, are request; ed to note where this difference exists, and in making choice of what they will use, not to take any other but that one en-titled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and resi-dences have been published, and who are still bearing daily

LIVER COMPLAINT AND SALT RHEUM.

New York, July 27, 1849.

Messers. A. B. & D. Sands,—Gentlemen:—Words can but feebly express my opinions, in conveying the pleasing intelligence that my wife is restored to periect health by the use of your invaluable Sareaparila. She was efficied with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the head, face, and body were covered with scales like those of a fish; the hair fell out in large quantities, and walking caused the most excruciating agomes, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, connected with general debitity, and a prostration of the nervous system. Physicials, 35th in Europe and America, had exhausted the usual renedles, without effecting a cure, or scarcely affording relief, but the best medical skill was unavailing, until she happily, 5-et your Sarsaparilla. The disease was pronounced salt rheum, but her whole system, internaily and externaily, was altogether deranged; but so complete has been the cure, after using the Sarsaparilla for six weeks, and taking in all less than one dozen botties, that she now enjoys better health than for years previous to taking the Sarsaparilla—My object in making this communication is, that all who have suffered as she has, may know where and to whom to apply for relief, (and that not in vain.) as a complete cure will be the result. My wife unites with me in heartielt thanks; and believe me, gentlemen,

Yours sincerely,

City and County of New York, 8s:—Ferrier Naze, being duly sworn, doth depose and say; that the foregoing statement, to which he has subscribed his anne, is true and accurate, to the best of his knowledge and belief.—Sworn and subscribed this 27th day of July, 1819, before me,

Extract from a letter received from a Physician in Md.

Cambridge, Md., Oct. oth, 1859.

Messrs. Sands, Gentlemen:—My little daughter was afficted for a long time with Sore Head and Lycs, and by using your Sarsaparilla, was perfectly cared, other medicines and Sarsaparilla, was perfectly cared, other medicines and Sarsaparillas having failed to relieve her. Having used it and tested its efficacy, I now confidently recommend it in preference to any other, as it seems to possess properties not contained in any other preparation; and I find that purchasers after they have used it, invariably want the same article again, whenever they require a medicine for which this is recommended.

Respectfully yours.

REAL FIRE PROOF SAFES. MORE PROOF OF THE SUPERIOR QUALITY OF MESSES. BURKE & BARNES' CELEBRATED FIRE PROOF SAFES.

THE character of these Safes, in St. Louis, was before so well established, that any further test or proof of the fact of their being superior to all others, would have been unnecessary, but in order to accommodate Mr. Hall, the patentee and maker of "Hall's Patent Concrete Safes," which has burnt up all other makes of any note in the United States, (Wilder's patent included,) we took up his challengs and the result is given below by the Committee who superintended the burning of the Safes. We only regret that they were not left in the furnaces two hours longer.

The Safe which we tested is to be seen at our Store, and we invite the public to call and examine it as we feel confident that no one will ever doubt their fire proof qualities after having seen the specimen which passed through the fiery ordeal on the 16th of June.

Sole Agents for the Manufacturers, No. 13, Levee, and No. 26 Com. Street.

The undersigned, a committee appointed by E. Hall, on behalf of Hall, Dodd & Co., of Cincinati, and Messrs. R. R. Violett & Co., as agents of Messra. Burke, Barner & Co of Pittsburg, to test the fire proof qualities of the safes made by their respective principals—report, that we have thus day subjected a Nac. of cach manufacture, of similar size, which had been in ose two years, in ovens to a fire made with dry oak wood, and Pittsburg stone coal, for the space of five and a half hours, and during that time we believe the beat applied was far greater than that in any ordinary conflagration—that at the expiration of that time, on taking the safes from the furnece, and cooling them down, we found that the iron casting on both was in places entirely by burnt of, but that the books were uninjured; and on opening, the safes we found books and papers entirely uninjured, except slightly by the water used in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the interior was that the varulah on the wood-work of Burke & Barnet' safe was entirely uninjured, while that on Hall, Dodd & Co.'s, was blistered and blackened. In conclusion, we would see mark, that frort he result of this test, we have no beat'aftion in recommending the safes of both parties to the confidence of the public.

Rush Creek township, Fairfield co. Feb. 25, 1832.

Dear Sir:—As I consider that my life hab been greatly protonged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry," I will state the symptoms of my case, that others similarly afficied may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the heetic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restless at nights, and had great might sweats, perspiring, I should say, at least two gallons a night, wetting the bed completely through. I had not been able to work for scars. But I was much emaciated, and almost helpless wim I commenced using Wistar's Balsam of Wild Cherry. I have used in all 13 bottles, kind I am now fee from all those complaints, for my health is good.

I am now 65, years old, and have not Jaken, any of the Balsam since 1846, because, my health is so good as not to require any medicines. But II I should have any return of my former symptoms, I should use Wistar's Jalsam of Wild Cherry. I procured the medicine of Mezers. Fall, & McCracken, your agents in Lancaster, Ohio;

Dr. Guysott—Dear Sir:—I send this to certify to you that your Extract of Yellow Dock and Sarsaparilla has performed one of the most wonderful cures on me that has eyer been affected on man.

I have been afflicted for forty years with irruptions on my legs and feet; in 1848 they got so bad that had to go on crutches, and in 1849 I had one leg amputated above the knee. In about 9 rouths after my other leg broke dut in large eating and running sores from my knee to my foot, and discharged agreat deal of offensive matter, and at the same time my left hand broke out in large running sores nearly to my elbow.

The misery that I have suffered for the last two years I cannot describe to you; I was in such agony that I here rested day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to burry my remains.

In October last my son brought me one of your bottle. help of God 1 had made preparation for death, and had pointed out to my family the place where to bury my remains.

In October last my son brought me one of your bottle-wrappers; I read it, and found record of some wonderful cures performed by your "Extract of Yellow Bock and Sarsmarilla." I sent and got two bottles of it, and commenced taking it. In two weeks to my great astionishment, my sores all become easy, and I could sleep all night, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by mechantment. I have now used in all eight hottles of your "Extract of Yellow Bock and Sarsaparilla," and I now comsider myself well. I am at a loss for terms to set forth the worth of this medicine, or to express my gratitude for what it has done for me. I must call it the Savior of man from misery while living upon earth. I entreat all of the afflicted to try this medicine, for I believe it will cure any knowi disease in the world.—Lay aside all prejudices and just try it, and procaim its great worth to suffering mankind and entreat them to take it, for it will cure them.

My case is well enown in a large portion of South Carolina, Georgia and Alaabama, and if any should doubt the above cure, I invite them to call on me, and I will show them the sears, I can be found in Talian oxa Co., Alabama one mile from Sloe's Ferry, BENEJAH HUGHES,

Dadeville, Alabama, May 21, 1852, Messrs. Scoville & Head:—This is to certify that about the first of February last, I was afflicted with three or four painful sores on and about the face, some of them as large as a quarter of a dollar; they assumed the appearance of Cancers, and I was fearful they would terminate in Cancers. About three weeks since I commenced taking, "boctor Guysott's Extract of Yellow Dock and Sarsaparilla," and found immediate relief from its use. I have not taken quite two bottles, and the sores on my face are all healed up; and those on my neck are nearly so; and I truly believe they will be entirely well in a few days.

I cheerfully recommend "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla" to persons afflicted with any skind of eruptions jor cañecrous sores. My general health is much improved by the use of the medicine.

Respectfully, RICHARE B. BURKE.

ERUPTIVE DISEASES.

Thas now become a settled fact, acknowledged by the best Physicians of our city, that in the cure of Sciulda, letter, and many other diseases, Bearthisears Fluin Kathact of Sciulda, Parket, and Darbeljon, is decidedly bove all other preparations. It speaks for itself whenever sed; and although we have never taken the pains of having it published through the papers, or appointing agents or the sale of it, yet we are almost weekly receiving orders from Vermont, New York, Ohio, Kentucky and other lates, by nexans, who by some chance means have heard ders from Vermont, New York, Ohio, Kentucky and other states, by persons, who by some chance means have heard of its wonderful cutative powers. The following is from a gentleman of Vermont a few days since, who used it for a very serious disease:

— DEAR DOCTOR:

The two bottles of medicine I got from you when in Wheeling, have nearly cured me; please send me some more by Express.

Yours Respectfully.

It is now prescribed by nearly all the Physicians of our city, not as a quack medicine, for we have made them sequainted with the component parts; and we now say to all such as we have not the opportunity of making it known to, that it is entirely free from all minerals, and is not in the least incompatible with any of the preparations of identification of the properties.
